

# SCIENCE GAMES FOR PARTIES

1. **Vortex Cannon** (3-12 years old)  
Shoot smoke rings into the air! Generate your strongest gust of wind to hit the cup castle!  
*Venue Requirements:* **Electricity**, **Fire Alarm Check/Open Space**
2. **Spinning Wheel** (6-12 years old)  
Spin the wheel as fast as you can to make it float!
3. **Egg Dropping** (3-7 years old)  
Will inertia keep your egg safe? Smack off the plate holding an egg without having the egg fly off!
4. **Book Tug of War** (5-12 years old)  
Two teams, one challenge—pull the books apart! But with friction holding them tight, it's harder than it looks!

SCIENCE GAMES  
FOR PARTIES

5. **Palm Fire** (3-12 years old)  
Hold fire in your “bare” hand like a wizard—safe, cool, and pure science magic! Kids under 8 will watch as the host performs this fiery trick.  
*Venue Requirements:* **Fire Alarm Check/Open Space**
6. **Floating Balloon Chain** (3-12 years old)  
Keep moving and laughing as you run, jump, and dodge through a spinning chain of floating balloons!  
*Venue Requirements:* **Indoor**
7. **Electric Zap** (3-12 years old)  
Feel the power of static electricity! Use a special wand to create electric zaps, watch your hair stand on end, and make small objects mysteriously float off your hand!  
*Venue Requirements:* **Electricity**
8. **Erupting Volcano** (3-12 years old)  
Watch as lava bubbles erupt in an exciting chemical reaction!
